
MOUNTAIN GOAT GRIP & LIGHTING | DENVER, CO

FAQ

Where is Mountain Goat Grip & Lighting based?

We are based in Denver, Colorado and service film & photo productions between Colorado, Utah and Wyoming.

How many Sprinter packages do you have?

Currently we offer one all-in-one Sprinter package titled the “Mountain Goat”.

What size package is the “Mountain Goat”?

The “Mountain Goat” is a hybrid Sprinter package built out with a specific set of tools similar to a traditional 2-ton G&E package but adds specialty rags, rigging, camera support, effects tools and expendables. This package was built on request of some of today’s popular commercial cinematographers and photographers that want no limit to create in remote locations.

Can the “Mountain Goat” service photo specific projects?

Yes, the “Mountain Goat” can service still photographers. We do not carry flash photography equipment, only constant lighting products from Arri, Aperture, Amaran, Astera and Litepanels.

Can we rent the Sprinter van on its own?

No, the Sprinter must be accompanied and driven by one of our team, typically our gaffer or key grip go out with the Sprinter.

What size productions can the “Mountain Goat” handle?

We service small to medium sized productions.

What expendables do you offer?

We offer power, radios, (hands-free and standard), directors monitors, directors chairs, EZ-Up tent, coolers, umbrellas, table, v-lock/gold mount batteries, and a variety of gaff and paper tapes.

Can we rent individual grip and lighting items from you?

Yes, you can rent grip, lighting, camera support and expendables from us. We require a certificate of insurance and credit card authorization. We can deliver and pickup to the Denver area only.

Where can I find your equipment list?

A complete equipment list can be here: https://mountaingoatgrip.com/wp-content/uploads/2026/10/mountain_goat_grip_gear_list.pdf

Can you provide or recommend G&E crew to our project?

Yes, we work with an experience team that can service any small to medium sized production. Our strength is our combined knowledge of working safely and efficiently in austere environments.

Where can the "Mountain Goat" Sprinter go?

The 4x4 Sprinter is rated for any high alpine pass or high desert environments in the Rocky Mountain region.

Can you recommend other production services, and crew?

Yes, we provide recommendations for crew and production services based locally in the Rocky Mountain region.
